- Feedback to Action Groups
- World Cafés, High Teas and Family Open Days
- Volunteers gathering feedback
- Service users on interview panels and committees

Impact

The Stretch2Engage Framework along with workshops and coaching improved the engagement capacity of pilot organisations, and the breadth and depth of their engagement activities.

Conclusion

Stretch2Engage is an important advance over previous approaches to engagement and participation, and a useful tool to improve experience and outcomes for people using services.

"We have started the journey of more meaningful engagement with systems in place to ensure that this feedback is used in a purposeful way."

"The benefits to the organisation are multidimensional and include greater potential for working in partnership with consumers... less stress for staff and improved attendance, job satisfaction and ability to feel that they are making a difference."
